Up to amazing
11.000rpm

Price complete pair of heads:
94mm bore **22.500 SEK**
4" bore **28.500 SEK**

4" bore,
WBX Stud pattern

MS230 Cylinder Head

Our MS230 heads are made from Alloy 356 heat treated T6 quality (100-110 Brinell), comes with Manley Type 4 Valves 48x38mm, Dual OTEVA 75 Valve Springs, JPM Titan Retainers, Standards Type 1 Guides and alubronze Valve Seats. Combustion Chambers for the 94mm bore is 60cc and for the 4" bore 65cc.

The Head is primarily designed for street use but can of course be used for all out Dragracing too.

Price: **4.995 SEK**

Brake in oil with extra Zink is included in the kit.

Raptor Cams

JP Motorsport are proud to tell you that we now can offer the latest in CNC Cam Shaft design. We work with the latest Software when designing the VALVE LIFT PROFILE. Great improvements over the 25year old Cam designs that most people are using. Custom made Cam profiles are available. (Spherical radius on lifter is matched on taper on cam lobe).

Price: **1.595 SEK**

OTEVA Valve Springs

This is our own Valve Spring developed together with the MS230 Cylinder Heads.

The Springs are manufactured from OTEVA 75 material (also used in the NASCAR engines) which is heat treated, shot peened and pressed to Coil Bind.

Retainers

Price Alume:
1.295 SEK

Price Titan:
1.695 SEK

JE Pistons

Price: **POA**

Our own JE custom made VW Piston with Gas Ports which can be used with stroke up to 86mm, 5,7" Rod and still using std Cylinder .

This means shorter Pushrods and shorter Cylinder Studs wich is one step up in performance.

94mm Piston with Rings ,Pin and Locks is only 420g.

F1 Roller Throttle Bodies

Probably the ultimate in roller throttle body design.

Our F1 Throttle Body is machined from a solid Bar in a 5-axis CNC Machine.

Price complete kit:
38.000 SEK

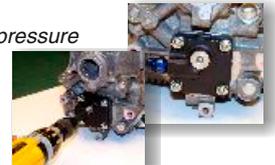

Price: **995 SEK**

Prime Cover kit

5 reasons why using our PRIME COVER is a good idea. You don't need to...

- ... crank the engine to get oil pressure
- ... remove the rockers
- ... remove the spark plugs
- ... ruin the starter motor
- ... empty the battery

Price 2 bolts:
8.500 SEK

Price 5 bolts:
10.500 SEK

JPM Rocker Arms

JPM Rocker Arms are forged by the same Swedish Company as made the GB Rocker Arms.

Available in ratios up to 1.60:1. The Shaft is 20mm dia. and made of Heat Treated Tool Steel. The adjuster is made from Heat treated H13 Steel.
